### "A TEXAS STEER."

Charles H. Hoyt's great American comedy, "A Texas Steer," was presented last night at the Charlestoa theater to an enthusiastic audience, who laughed and applauded the Hoytian wit and satire. The cast is an unusally good one. Frank M. Readick as "Maverick Brander," "Texas Cattle King" and Congressman, is excellent and has a splendid conception of the author's ideas. Nina Wilber is the ideal, "Bossy," bright, chic and dashing and demonstrates her remarkable ability as the society girl in the evolution from the Texas ranch to Washington society. James A. Devlin as "Brassy gall" was the lobbyist true to life and he carried the part to success, and the balance of the cast was all that could be desired .-Charleston Daily Plaindealer, November 14,

## UNJUST TAX PLAN

The Tax Commissioners of the States Agree

In Denouncing General Tax System Like Ours-Full of Evils In Operation.

In discussing tax questions in Kentucky and elsewhere, frequent reference is made to the "general property tax." This is the kind of system Kentucky has in force. It is the system that is in force in most of the

Briefly, the general property tax is a uniform ad valorem tax levied upon all classes of property alike, regardless of the nature, of the earning capacity or of the tangible or intangible authority of a state, for instance, will levy a tax of 50 cents. This tax is to fall upon every kind of property alike. Everything of value, whether real estate, money in bank, notes, bonds, wagons, carriages, jewelry, furniture, any sort of personal property, or franchises of corporations is called property and must pay this tax. This is the general property tax. The general property tax is, therefore, the levying of a uniform ad valorem tax on all property for all purposes.

As distinct from this system is the system of classifying property, raising state revenues from one kind of property, county revenues from another kind of property and city revenues from still another kind, and also the raising of revenues by special taxes of various kinds. The argument in the tax world today is between these two systems of raising the public rev-

The Kentucky system is the general property ta . Our constitution binds us to the levy of a uniform ad valorem tax on all property of every kind for all purposes. If a piece of property located in the city is taxed for one purpose, it must be taxed for all. If it is a property-earning 6 per cent return to its owner, it must pay the same tax as property earning 20 per cent. If it is a kind that can be removed or hidden it is taxed the same as real estate-if it can be found. No distinction is made on any account whatever; all property must pay the same rate.

This sounds like a very fair system, and in theory, it is fairness itself. But its operation, in the opinion of those who have studied the question, not in Kentucky only but in every state in the Union, has not borne out the promise made for it. The system has been abandoned in Pennsylvania, Connecticut, Delaware, New Jersey, Wisconsin, Oregon, and partially in a number of other states. The rapid tenof the states is to get away from it, as impossible and impracticable. Nearly every state that has a tax commission has declared itself very frankly on this question. A large number of states have within the last few years apppointed tax commissions to carefully study the methods of raising public revenues and, almost invariably, the reports of these commissions have denounced the general property tax system, the system that we have in Kentucky, as being absurd, impossible of enforcement and unjust in its operation. Denounced by Supreme Court.

The supreme court of the United States leads the way in denouncing the system. In its opinion in the case of the Pacific Express Co. vs. Seibert, the court said:

"This court has repeatedly laid down the doctrine that diversity of taxation, both with respect to the amount imposed and the various species of property selected either for bearing its burdens or being exempt from them, is not inconsistent with a perfect uniformity and equality of taxation in the proper sense of those terms; and that a system which imposes the same tax upon every species or condition or class, will be destructive of the principle of uniformity and equality in taxation and of a just

adaptation of property to its burdens.' An Illinois tax commission has declared that the uniform ad valorem general property tax, the system that we have also in Kentucky, "is debauching to the conscience and subversive to the public morals—a school for perjury, promoted by law."

An Chio tax commission has denounced it as "imposing unjust burdens on the man who is scrupulously honest," and Ohio is engaged in an effort to get rid of it.

A New Hampshire tax commission deplores its "corrupting and demoralizing influence."

A New York tax commission says: "It puts a premium on perjury and a penalty on integrity."

In an address to the general assembly of Maryland, Richard T. Ely, one of the greatest of our publicists, said: "The one uniform tax on all property as an exclusive source of revenue never has worked well in any modern community or state in the entire civilized world, though it has been tried thousands of times, and although all the mental resources of able men have been employed to make it work well.'

Prof. E. A. Angell, late tax commissioner of Ohio, said in an article in the Independent: "The indirect results of the operation of the law have been to drive away large mases of capital from the state. It is estimated that at least \$200,0000,000 has been lost to Cleveland alone, and as much more

<del></del> FARMERS IN MANY STATES WANT RELIEF FROM UN-FAIR TAXATION.

<del>\$</del>

Constitutional amendments are be ing given thorough attention by farmers of the country. In Ohio, Hon. F. A. Derthick, master of the State Grange, in discussing a proposition to permit of classification of the sources of tax revenue, said:

"There is a common ground upon which we can all stand. We must have in increasing amount of revenue and that means a more just return of the property in the state. Where is the injustice of laying a reasonable tax on the deposits reported by the banks of the state, the same to be charged to depositors? True, not all depositors are residents of Ohio, but they enjoy the protection of our laws and in large measure draw their interest from our people.

"This could, at least, be done with resident depositors and they would be relieved from the temptation to commit the crime of perjury."

The Kentucky Grange.

The Kentucky State Grange had this same subject before it at the meeting held in Frankfort October 21 to 23, 1907. Mr. F. P. Wolcott, Master of the State Grange, discussed the question in a very interesting manner, as

"The order has been most active in behalf of the just regulation of taxation, recognizing that the farmer is losing more from our present system and has more to gain from the establishment of a just and equitable system of taxation than has any other class of citizens. The order in representing the agricultural class, always endeavors to be fair and honorable with all other interests, and has the right to demand like treatment in return. In nearly every state in the Union the cry has been loud against unjust revenue laws, and steps are being taken to remedy the

"Various State Granges have, by their action, declared it wrong to legislate into the organic laws of a state any provision which shall exempt. from taxation property aggregating vast sums, in the possesion of the wealthy, and often kept by them invisible, thus leaving the small holdings of the masses of people of moderate means to bear the burden of doubled taxation.

"The present constitution of Kentucky binds us to the general property tax-that is, to the system of levying the same tax upon all classes of property for all purposes. There should be an amendment to our constitution which will allow the legislature to separate the sources of revenue-that is, to raise the state revenue from certain classes of property, leaving other classes of property to be taxed for local purposes only.

"It has been argued by some that this would throw too much power into the hands of the legislature. Should munity. such an amendment prevail, then would it devolve upon the voters of the state to pay stricter attention to the selection of their representatives than has obtained in the past in both city and country.

"The Kentucky State Development association and other organizations have honored the Grange by placing upon its joint committee on taxation, a member of this order as representative of the agricultural interests of the state, and it is important that the views and demands of the farmers be clearly defined at this state session. It is recommended that this body promptly and emphatically take action in favor of just and equitable revenue laws, and for the establishment of an official tax commission, to be composed of five members-four representing respectively the great industries, agriculture, manufacturing, mining and commerce, and a fifth member, noted for the highest integrity and for superior legal ability.

MAYSVILLE COMMANDERY, R. T. Stated conclave of Maysville Commandery No 10, K. T., at the Asylum in Cox Building at 7:30 S. P. BROWNING, E. C. this evening. Gordon Sulser, Recorder.

Ten deaths from consumption at Louisville last week.

Without giving any reason, W. A. Young, counsel for Fult warrant and held over to the Circuit Court in French, on trial at Beattyville, retired from the case and left the town.

### IS CONSUMPTION INHERITED?

Opinion of a Prominent Bacteriologist Given at a Recent Lecture at Harvard College.

Prof. H. C. Ernst in a recent lecture before Harvard Medical School discussed this theory at length. He claims that consumption is not an inherited disease, and that the children of parents who have had tuberculosis are as likely to grow up strong and healthy as children of parents who have not. Dr. Ernst further claims that the cardinal means for curing this dread disease are plenty of fresh air, sufficient nutritious food, rest and exercise.

For centuries physicians everywhere have recognized the value of cod liver oil in the treatment of consumption and all wasting diseases, but unfortunately few could take it with benefit on account of the indigestible oil.

Vinol has solved this problem. It is the modern cod liver preparation without oil, made by a scientific, extractive and concentrating process from fresh cods' livers, combining with peptonate of iron, all the medicinal, healing and body-building elements of cod liver oil, but no oil or grease. As a specific for all throat and lung troubles, and as a strength creator and body builder Vinol is unexcelled. Try it on our offer to return your money if it fails to give satisfaction.

When buying from a jewelry store wouldn't you consider i very important to feel there is absolutely no question about quality? When you buy here you don't pay any more, perhaps less, than in an indifferent store, but you are certain about quality. That point alone is more important in choosing Diamonds, Jewelry, Watches and Silverware than any other merchandise. : : : :

THE NORTHWESTERN MUTUAL LIFE INSURANCE COMPANY

Not only sells the BEST and BROADEST contract, but returns LARGER dividends and therefore insures at a LOW net cost. The new 1907 policy of THE NORTHWESTERN is a marvel of completeness. It covers as many of life's contingencies, probable or possible, as can be met by money. It is like a will, except that it provides the estate that it distributes. It contains large Loan and Cash values. It provides automatic Paid-up or Extended Insurance, and for Reinstatement at any time within FIVE YEARS after lapse. after lapse.

NO OTHER company offers as many or as varied OPTIONS of Settlement, under ANY or ALL of its policies combined, as THE NORTH-WESTERN offers under its ONE policy.

### Complimentary Notice From a Lewis **County Brother**

Rev. W. T. Spears, in The Christian Observer speaks thus of Rev. Joseph M. Evans of this

In connection with my work at Vanceburg, Ky., I am doing some mission work at Sandy Springs Church, across the river in Ohio. This is a little band of faithful Presbyterians in Portsmouth Presbytery. I am trying to hold that community for our Church. We have a good brick Church with about eighteen members. Common leaf About two weeks ago, Rev. J. M. Evans came to assist me in a meeting there. He has done some very faithful work both in visiting from great power and simplicity. Up to the 9th, eighteen have united with the Church and others are interested. Our Church has a faithful band of women at Sandy Springs, who are working very efficiently in the Sabbath school at that place, and are helping our own active elder to do a good work for the Master in that community. Just before coming to Sandy Springs, Mr. Evans spent two weeks at Rome, Ohio, where there is a little band of twelve or fifteen Presbyterians with a good building. This Church is also in Portsmouth Presbytery. His meeting there did great good and there were eight additions to the Presbyterian Church. Mr. Evans is very effective in such work for a man now beyond seventy years of age. Few men at forty can do the work that he can.

There Is a Heap of Solace in Being Able to Depend Upon a Well-**Earned Reputation** 

For months Maysville readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit. A. W. McClanahan of A. W. and B. P. McClanahan, grocers, at 121 Second street, Maysville, Ky.,

"I can endorse Doan's Kidney Pills more heartily today than I did five years ago when I told the Maysville people that this medicine bad cured me of severe kidney trouble and backache that had bothered me for twenty years and seemed to be growing worse all the time. I re-peat that I can more confidently recommend Doan's Kidney Pills today than I did in that testimonial because my cure has been permanent and I have had no kidney trouble for nearly five years. As proof that I am a firm believer in Doan's Kidney Pills I will be only too pleased to reiterate the above to anyone who may inquire."
